Re: 2020 Water Rates

Dear Valued Customer:

The Chicago Municipal Code states "beginning June 1, 2016, and every year thereafter, the annual rates shall be adjusted upwards, if applicable, by applying to the previous year's rates the rate of inflation, calculated based on the Consumer Price Index - Urban Wage Earners and Clerical Workers (Chicago All Items) published by the United States Bureau of Labor Statistics for the 365-day period ending on the most recent January 1. Any such annual increase, however, shall be capped at 105% of the previous year's rate." The Consumer Price Index inflation rate for 2019 was 2.45%.

Please be advised that the 2.45% water rate increase will take effect June 1, 2020. The rate will be as follows:

Effective June 1, 2020, the water rate is \$30.46 per 1,000 Cubic Feet or approximately \$4.08 per 1,000 gallons.

WHEREAS, LICENSEE desires to install, maintain and operate small wireless facilities in and/or upon certain areas of LICENSOR's utility poles, wireless support structures and/or real property; and

WHEREAS, LICENSOR and LICENSEE intend to ensure that any installations or construction made pursuant to this Agreement comply with the City's requirements related to stealth construction (Chapter 86 of the City Code), general construction (Section 86 of the City Code) and compliance with certain other construction requirements, including but not limited to any historic district construction standards and requirements; and

WHEREAS, LICENSOR and LICENSEE intend to promote the expansion of communications services in a manner consistent with the Small Wireless Facilities Deployment Act, the Illinois Cable and Video Competition Act, the Illinois Telephone Company Act, the Telecommunications Act of 1996, the Middle Class Tax Relief and Job Creation Act of 2012, the Simplified Municipal Telecommunications Tax Act, 35 ILCS 636/5-1, *et seq.* and Federal Communication Commission Regulations; and

May __, 2020

WHEREAS, the Parties acknowledge that different related entities may operate or conduct the business of LICENSEE in different geographic areas and as a result, each Supplement may be signed by LICENSEE affiliated entities as further described herein, as appropriate based upon the entity holding the FCC license in the subject geographic location;

NOW THEREFORE, in consideration of the mutual covenants contained herein and intending to be legally bound hereby, the Parties hereto agree as follows:

- 1) **PREMISES.** Pursuant to all of the terms and conditions of this Agreement and the applicable Supplement, LICENSOR agrees to license to LICENSEE certain space on or upon LICENSOR's utility poles, and/or wireless support structures as more fully described in each Supplement to be executed by the Parties hereinafter referred to as the "Premises", for the installation, operation, maintenance, repair and modification of small wireless facilities; together with the non-exclusive right of ingress and egress from a public right-of-way, seven (7) days a week, twenty-four (24) hours a day, over the Property (as defined below) and to and from the Premises for the purpose of installation, operation, maintenance, repair and modification of LICENSEE's small wireless facilities. Whenever practicable, the LICENSEE shall notify LICENSOR as soon as possible in advance of when it intends to install, maintain, repair or modify the small cell wireless facilities, or if said notice is not practicable, then as soon as possible thereafter. LICENSOR's utility poles, wireless support structures and other poles and towers are hereinafter referred to as "Pole" and the entirety of LICENSOR's property is hereinafter referred to as "Property". In the event there are not sufficient electric and telephone, cable or fiber utility sources located at the Premises or on the Property, LICENSOR agrees to grant LICENSEE the right to install such utilities on, over and/or under the Property and to the Premises as necessary for LICENSEE to operate its communications facility, but only from a duly authorized provider of such utilities, provided the location of such utilities shall be designated by LICENSOR and LICENSEE shall be responsible for the costs of all related permits, including but not limited to permits for laying, installing or constructing telephone, cable or fiber utility sources located at the Premises, as subject to City Code. All installations, maintenance, pole damage repairs and reinstallation shall be in compliance with the Municipal Poles: Ownership, Maintenance and Replacement requirements attached hereto as Schedule 1.
- 2) **PERMIT APPLICATION.** For each small wireless facility, LICENSEE shall submit an application to LICENSOR for permit that includes:
 - a) Site specific structural integrity and, for LICENSOR'S utility pole or wireless support structure, make-ready analysis prepared by a structural engineer, as that term is defined in Section 4 of the Structural Engineering Practice Act of 1989;
 - b) The location where each proposed small wireless facility or utility pole would be installed and photographs of the location and its immediate surroundings depicting the utility poles or structures on which each proposed small wireless facility would be mounted and location where utility poles or structures would be installed as indicated by longitude and latitude. The permit drawings or application shall clearly show the right-of-way lines, the location of other utilities, the dimensions of the equipment to be installed, the placement elevations and the location of all new and existing equipment, with the existing equipment being clearly labelled, and closest address. This should include a depiction of the completed facility;
 - c) Specifications and drawings prepared by a structural engineer, as that term is defined in Section 4 of the Structural Engineering Practice Act of 1989, for each proposed small wireless facility covered by the application as it is proposed to be installed;

Village of Stickney Master Pole Agreement

May __, 2020

- d) The equipment type, model numbers and color for the antennas and all other wireless equipment associated with the small wireless facility;
 - e) A proposed schedule for the installation and completion of each small wireless facility covered by the application, if approved;
 - f) Certification that the collocation complies with LICENSOR's Small Wireless Facilities Ordinance requirements, to the best of the applicant's knowledge;
 - g) The application fee due; and
 - h) The LICENSEE's plans for compliance with the City's stealth construction, general construction, and other related standards adopted by or published by the City
- 3) APPLICATION FEES. Application fees are subject to the following requirements:
- a) LICENSEE shall pay an application fee of \$650 for an application to collocate a single small wireless facility on an existing utility pole or wireless support structure and \$350 for each small wireless facility addressed in a consolidated application to collocate more than one small wireless facility on existing utility poles or wireless support structures.
 - b) LICENSEE shall pay an application fee of \$1,000 for each small wireless facility addressed in an application that includes the installation of a new utility pole for such collocation.
 - c) Notwithstanding any contrary provision of State law or local ordinance, applications pursuant to this Section must be accompanied by the required application fee.
 - d) LICENSOR shall not require an application, approval, or permit, or require any fees or other charges, from LICENSEE, for:
 - i) Routine maintenance; or
 - ii) The replacement of wireless facilities with wireless facilities that are substantially similar, the same size, or smaller if LICENSEE notifies LICENSOR at least 10 days prior to the planned replacement and includes equipment specifications for the replacement of equipment consistent with the requirements of this Agreement; or
 - iii) The installation, placement, maintenance, operation, or replacement of small wireless facilities that are suspended on cables that are strung between existing utility poles in compliance with applicable safety codes, provided this provision does not authorize such facilities to be suspended from municipal electric lines, if any.
 - e) LICENSEE shall secure a permit from LICENSOR to work within rights-of-way for activities that affect traffic patterns, require lane closures, or install associated utilities (such as power or fiber) required for the small cellular facility to function. LICENSEE shall also secure a permit for any and all electrical work, fiber optic, cable or telephone line work, and any other permit provided for by the City Code that is not otherwise prohibited by law.
- 4) REQUIREMENTS.
- a) LICENSEE's operation of the small wireless facilities shall not interfere with the frequencies used by a public safety agency for public safety communications. LICENSEE shall install small wireless facilities of the type and frequency that will not cause unacceptable interference with a public safety agency's communications equipment. Unacceptable interference will be determined by and measured in accordance with

Village of Stickney Master Pole Agreement

May __, 2020

industry standards and the FCC's regulations addressing unacceptable interference to public safety spectrum or any other spectrum licensed by a public safety agency. If a small wireless facility causes such interference, and LICENSEE has been given written notice of the interference by the public safety agency, LICENSEE, at its own expense, shall take all reasonable steps necessary to correct and eliminate the interference, including, but not limited to, powering down the small wireless facility and later powering up the small wireless facility for intermittent testing, if necessary. LICENSOR may terminate a permit for a small wireless facility based on such interference if LICENSEE is not making a good faith effort to remedy the problem in a manner consistent with the abatement and resolution procedures for interference with public safety spectrum established by the FCC including 47 CFR 22.970 through 47 CFR 22.973 and 47 CFR 90.672 through 47 CFR 90.675.

- b) LICENSEE shall not install devices on the existing utility pole or wireless support structure that extend beyond 10 feet of the poles existing height.
- c) LICENSEE shall install pole mounted equipment at a minimum of 8 feet from the ground.
- d) LICENSEE shall be limited to one (1) cabinet or other ground mounted device for ground mounted installations.
- e) LICENSEE shall paint antennas, mounting hardware, and other devices to match or complement the structure upon which they are being mounted and to comply with the City's stealth requirements or other requirements of the City Code, including but not limited to the City's zoning code or land use ordinances. Type, make, and finish of LICENSEE poles shall be consistent with other poles in the immediate area or as approved by LICENSOR. If paint is not technologically feasible or otherwise impractical, then LICENSEE may use other means to achieve the color match or complement, provided that it does so in a manner that will achieve a color match or compliment that is as close to what would be achieved by paint as is technically feasible.
- f) LICENSEE shall install landscaping at the base of poles with respect to any ground equipment installed by LICENSEE on which devices are being installed as required by Chapter 1250 of the City Code as now or hereafter amended of the LICENSOR.
- g) LICENSEE shall comply with all the terms and conditions of LICENSOR's ordinance regulating construction in the right-of-way, specifically rules, codes and ordinances to include Chapter 86, Article IV, *et seq.* in regards to construction of utility facilities. In the event of a conflict between Chapter 86, Article IV of the City Code and Ordinance 19-09 will supersede all previous ordinances regarding wireless small cell communications.
- h) LICENSEE shall comply with requirements that are imposed by a contract between the LICENSOR and a private property owner that concern design or construction standards applicable to utility poles and ground-mounted equipment located in the right-of-way.
- i) LICENSEE shall comply with applicable spacing requirements in Chapter 86, Article IV of the City Code, where applicable, and any other applicable sections of the City Code, as now or hereafter amended concerning the location of ground-mounted equipment located in the right-of-way.
- j) LICENSEE shall comply with all City Codes, including Chapter 86, Article IV, *et seq.*, of Stickney codes and ordinances, as now or hereafter amended, concerning undergrounding requirements or determinations from the municipal officer or employee in charge of municipal utilities, if any.

Village of Stickney Master Pole Agreement

- k) LICENSEE shall comply with Chapter 86, *et seq.* as now or hereafter amended, for construction and public safety in the rights-of-way, including, but not limited to, wiring and cabling requirements, grounding requirements, utility pole extension requirements, and signage limitations; and shall comply with reasonable and nondiscriminatory requirements that are consistent with PA 100-0585 and adopted by LICENSOR regulating the location, size, surface area and height of small wireless facilities, or the abandonment and removal of small wireless facilities.
- l) LICENSEE shall not collocate small wireless facilities within the communication worker safety zone of the pole or the electric supply zone of the pole on LICENSOR utility poles that are part of an electric distribution or transmission system. However, the antenna and support equipment of the small wireless facility may be located in the communications space on the LICENSOR utility pole and on the top of the pole, if not otherwise unavailable, if LICENSEE complies with all City Codes including but not limited to Chapter 86, Article IV, *et seq.* and Chapter 86, Article IV, *et seq.* of the City Code for work involving the top of the pole. For purposes of this subparagraph, the terms "communications space", "communication worker safety zone", and "electric supply zone" have the meanings given to those terms in the National Electric Safety Code as published by the Institute of Electrical and Electronics Engineers.
- m) LICENSEE shall comply with all the City Codes, including but not limited to Chapter 86, Article IV, *et seq.* of the City Code ordinances and all OSHA rules and regulations, as now or hereafter amended, that concern public safety.
- n) LICENSEE shall install, maintain, repair and modify its small wireless facilities in safe condition and good repair and in compliance with the requirements and conditions of this Agreement. LICENSEE shall ensure that its employees, agents or contractors that perform work in connection with its small wireless facilities are adequately trained and skilled in accordance with all applicable industry and governmental standards and regulations and are licensed and bonded with the City. LICENSEE shall be financially responsible for any repair or replacement of City streets, alleys, curbs or other City-owned property needed as a result of LICENSEE's errors and omissions or other such negligent or willful conduct that causes damage or the need for repair or replacement of the City streets, alleys, curbs or other City-owned property. The parties shall communicate and cooperate in good faith to ensure any necessary repairs are performed as soon as reasonably practical following the incident requiring repair or replacement of said streets, alleys, curbs or other City-owned property. In the event that repairs are performed by the LICENSOR to correct damage caused by LICENSEE's errors and omissions or other such negligent or willful conduct, LICENSEE shall reimburse LICENSOR for all related costs within ninety (90) calendar days of written demand for said reimbursement.
- o) LICENSEE shall comply with all applicable sections of the City Code, including but not limited to certain design standards for decorative utility poles, or stealth, concealment, and aesthetic requirements that are identified by LICENSOR in Chapters 86, Article IV, *et seq.*, and Chapter 86, Article IV, *et seq.*, as amended and any other applicable stealth standards adopted by the Licensor, including but not limited the LICENSOR's comprehensive plan, any subsequent comprehensive plans adopted or other written design plan that applies to other occupiers of the rights-of-way, including on a historic landmark or in a historic district.
- p) LICENSOR shall comply with the City's design or concealment measures in a historic district or historic landmark as provided for by the City Code, including but not limited to Chapter 86, Article IV, the streetscape or character of the historic district, and as provided for by the City's Comprehensive Plans, as amended.

Village of Stickney Master Pole Agreement

Any such design or concealment measures, including restrictions on a specific category of poles, may not have the effect of prohibiting any LICENSEE's technology. Such design and concealment measures shall not be considered a part of the small wireless facility for purposes of the size restrictions of a small wireless facility. This paragraph may not be construed to limit LICENSOR's enforcement of historic preservation in conformance with the requirements adopted pursuant to the Illinois State Agency Historic Resources Preservation Act or the National Historic Preservation Act of 1966, 54 U.S.C. Section 300101 *et seq.* and the regulations adopted to implement those laws.

5) APPLICATION PROCESS. LICENSOR shall process applications as follows:

- a) An application to collocate a small wireless facility on an existing utility pole, replacement of an existing utility pole or wireless support structure owned or controlled by LICENSOR shall be processed by LICENSOR and deemed approved if LICENSOR fails to approve or deny the application within 90 days. However, if LICENSEE intends to proceed with the permitted activity on a deemed approved basis, LICENSEE must notify LICENSOR in writing of its intention to invoke the deemed approved remedy no sooner than 75 days after the submission of a completed application. The permit shall be deemed approved on the latter of the 90th day after submission of the complete application or the 10th day after the receipt of the deemed approved notice by LICENSOR. The receipt of the deemed approved notice shall not preclude LICENSOR's denial of the permit request within the time limits as provided under Chapter 86, Article IV of the City Code, as amended.
- b) An application to collocate a small wireless facility that includes the installation of a new utility pole shall be processed and deemed approved if LICENSOR fails to approve or deny the application within 120 days. However, if LICENSEE applicant intends to proceed with the permitted activity on a deemed approved basis, the applicant must notify LICENSOR in writing of its intention to invoke the deemed approved remedy no sooner than 105 days after the submission of a completed application. The permit shall be deemed approved on the latter of the 120th day after submission of the complete application or the 10th day after the receipt of the deemed approved notice by LICENSOR. The receipt of the deemed approved notice shall not preclude LICENSOR's denial of the permit request within the time limits as provided under Chapter 86, Article IV of the City Code, as amended
- c) LICENSOR shall approve an application unless the application does not meet the requirements of Chapter 86, Article IV of the City Code, as amended.
- d) If LICENSOR determines that applicable codes, local code provisions or regulations that concern public safety, or the requirements of Chapter 86, Article IV of the City Code, as amended require that the utility pole or wireless support structure be replaced before the requested collocation, approval may be conditioned on the replacement of the utility pole or wireless support structure at the cost of LICENSEE. LICENSOR must document the basis for a denial, including the specific code provisions or application conditions on which the denial was based, and send the documentation to LICENSEE on or before the day LICENSOR denies an application. LICENSEE may cure the deficiencies identified by LICENSOR and resubmit the revised application once within 30 days after notice of denial is sent to the applicant without paying an additional application fee. LICENSOR shall approve or deny the revised application within 30 days after LICENSEE resubmits the application or it is deemed approved. However, LICENSEE must notify LICENSOR in

Village of Stickney Master Pole Agreement

May __, 2020

writing of its intention to proceed with the permitted activity on a deemed approved basis, which may be submitted with the resubmitted application. Any subsequent review shall be limited to the deficiencies cited in the denial. However, this revised application cure does not apply if the cure requires the review of a new location, new or different structure to be collocated upon, new antennas, or other wireless equipment associated with the small wireless facility.

- e) COMPLETENESS OF APPLICATION. Within 30 days after receiving an application, the LICENSOR shall determine whether the application is complete and notify the applicant. If an application is incomplete, the LICENSOR shall specifically identify the missing information. An application shall be deemed complete if the LICENSOR fails to provide notification to the applicant within 30 days after all documents, information and fees specifically enumerated in the LICENSOR's permit application form are submitted by the applicant to the LICENSOR. Processing deadlines are tolled from the time the LICENSOR sends the notice of incompleteness to the time the applicant provides the missing information.
 - f) TOLLING. The time period for applications may be further tolled by the express agreement in writing by both LICENSOR and LICENSEE; or a local, State or federal disaster declaration or similar emergency that causes the delay.
 - g) CONSOLIDATED APPLICATIONS. A LICENSEE seeking to collocate small wireless facilities within the jurisdiction of LICENSOR shall be allowed, at LICENSEE's discretion, to file a consolidated application and receive a single permit for the collocation of up to 25 small wireless facilities if the collocations each involve substantially the same type of small wireless facility and substantially the same type of structure. If an application includes multiple small wireless facilities, LICENSOR may remove small wireless facility collocations from the application and treat separately small wireless facility collocations for which incomplete information has been provided or that do not qualify for consolidated treatment or that are denied. LICENSOR may issue separate permits for each collocation that is approved in a consolidated application.
- 6) COLLOCATION COMPLETION DEADLINE. Collocation for which a permit is granted shall be completed within 180 days after issuance of the permit, unless LICENSOR and LICENSEE agree to extend this period or a delay is caused by make-ready work for a LICENSOR utility pole or by the lack of commercial power or backhaul availability at the site, provided LICENSEE has made a timely request within 60 days after the issuance of the permit for commercial power or backhaul services, and the additional time to complete installation does not exceed 360 days after issuance of the permit. Otherwise, the permit shall be void unless LICENSOR grants an extension in writing to the LICENSEE.
- 7) DURATION OF PERMITS AND SUPPLEMENTS. The duration of a permit and the initial Supplement shall be for a period of not less than 5 years, and the permit and Supplement shall be renewed for equivalent durations unless LICENSOR makes a finding that the small wireless facilities or the new or modified utility pole do not comply with the applicable codes or local code provisions or regulations in Chapter 86, Article IV of the City Code, as amended. If P.A. 100-0585 is repealed as provided in Section 90 of the Act, renewals of permits shall be subject to the LICENSOR's code provisions or regulations in effect at the time of renewal.

Village of Stickney Master Pole Agreement

- 8) **EXTENSIONS**. Each Supplement may be extended for additional five (5) year terms unless LICENSEE terminates it at the end of the then current term by giving LICENSOR written notice of the intent to terminate at least three (3) months prior to the end of the then current term. The initial term and all extensions under a Supplement shall be collectively referred to herein as the "Term". Notwithstanding anything herein, after the expiration of this Agreement, its terms and conditions shall survive and govern with respect to any remaining Supplements in effect until their expiration or termination.
- 9) **RENTAL**. Each Supplement shall be effective as of the date of execution by both Parties (the "Effective Date"), provided, however, the initial term of each Supplement shall be for five (5) years and shall commence on the first day of the month following the day that LICENSEE commences installation of the equipment on the Premises (the "Commencement Date") at which time rental payments shall commence and be due at a total annual rental as set forth in the Supplement, to be paid in advance annually on the Commencement Date and on each anniversary of it in advance, to the LICENSOR in the Supplement (unless LESSOR otherwise designates another payee and provides notice to LICENSEE). LICENSOR and LICENSEE acknowledge and agree that the initial rental payment for each Supplement shall not actually be sent by LICENSEE until thirty (30) days after the Commencement Date. LICENSOR and LICENSEE agree that they shall acknowledge in writing the Commencement Date of each Supplement. Rental for the use of any poles pursuant to this Agreement, shall be an annual fee of \$200.00 per each wireless facility which LICENSEE attaches to LICENSOR's pole. Thereafter, rent will be due at each annual anniversary of the "Commencement Date" of the applicable Supplement. Upon agreement of the Parties, LICENSEE may pay rent by electronic funds transfer and, in such event, LICENSOR agrees to provide to LICENSEE bank routing information for such purpose upon request of LICENSEE.
- 10) **ABANDONMENT**. A small wireless facility that is not operated for a continuous period of 12 months shall be considered abandoned and the LICENSEE must remove the small wireless facility within 90 days after receipt of written notice from LICENSOR notifying LICENSEE of the abandonment.
- The notice shall be sent by certified or registered mail, return receipt requested, by LICENSOR to the LICENSEE at the last known address of LICENSEE. If the small wireless facility is not removed within 90 days of such notice, LICENSOR may remove or cause the removal of such facility and charge said costs to the LICENSEE.
- LICENSEE shall provide written notice to LICENSOR of any sale or transfer of small wireless facilities not less than 30 days prior to such transfer and said notice shall include the name and contact information of the new wireless provider.
- 11) **CONDITION OF PREMISES**. Where the Premises includes one or more Poles, LICENSOR covenants that it will keep the Poles in good repair as required by all federal, state, county and local laws. If the LICENSOR fails to make such repairs including maintenance within 60 days, of any notification to LICENSOR, the LICENSEE shall have the right to cease annual rental for the effected poles, but only if the poles are no longer capable of being used for the purpose originally contemplated in this Agreement or otherwise do not comply with existing law. If LICENSEE terminates, LICENSEE shall remove its small wireless facility. Termination of this Agreement shall be the LICENSEE's sole remedy.

Village of Stickney Master Pole Agreement

May __, 2020

- 12) MAKE READY TERMS. LICENSOR shall not require more make-ready work than required to meet applicable codes or industry standards. Make-ready work may include work needed to accommodate additional public safety communications needs that are identified in a documented and approved plan for the deployment of public safety equipment as specified and included in an existing or preliminary LICENSOR or public service agency plan. Fees for make-ready work, including any LICENSOR utility pole attachment, shall not exceed actual costs or the amount charged to communications service providers for similar work and shall not include any consultants' fees or expenses for LICENSOR utility poles that do not support aerial facilities used to provide communications services or electric service. Make-ready work, including any pole replacement, shall be completed within 60 days of written acceptance of the good faith estimate by the LICENSOR at the LICENSEE's sole cost and expense. Unless otherwise agreed by the parties, any make-ready work, including pole replacements, shall be performed by the LICENSEE or its qualified contractor.
- 13) AERIAL FACILITIES. For LICENSOR utility poles that support aerial facilities used to provide communications services or electric services, LICENSEE shall comply with the process for make-ready work under 47 U.S.C. 224 and its implementing regulations. LICENSOR shall follow a substantially similar process for such make-ready work except to the extent that the timing requirements are otherwise addressed in Chapter 86, Article IV of the City Code, as now or hereafter amended. The good-faith estimate of the person owning or controlling LICENSOR's utility pole for any make-ready work necessary to enable the pole to support the requested collocation shall include LICENSOR utility pole replacement, if necessary. Make-ready work for utility poles that support aerial facilities used to provide communications services or electric services may include reasonable consultants' fees and expenses.
- 14) NO AERIAL FACILITIES. For LICENSOR utility poles that do not support aerial facilities used to provide communications services or electric services, LICENSOR shall provide a good-faith estimate for any make-ready work necessary to enable the LICENSOR utility pole to support the requested collocation, including pole replacement, if necessary, within 90 days after receipt of a complete application. Make-ready work, including any LICENSOR utility pole replacement, shall be completed within 60 days of written acceptance of the good-faith estimate by LICENSEE at LICENSEE's sole cost and expense. Alternatively, if LICENSOR determines that applicable codes or public safety regulations require the LICENSOR's utility pole to be replaced to support the requested collocation, LICENSOR may require LICENSEE to replace LICENSOR's utility pole at LICENSEE's sole cost and expense.
- 15) GENERAL RESTRICTIONS. In the event LICENSOR, in its reasonable discretion deems it necessary to remove, relocate or replace a Pole, LICENSOR shall notify LICENSEE of the need to remove or relocate its small wireless facility at least 90 days in advance of the removal or relocation. In such event, LICENSOR shall, when possible, suggest alternative locations for LICENSEE relocation of equipment which shall be in a mutually agreeable location ("Alternative Premises"). LICENSEE shall be solely responsible for all costs related to the relocation of its small wireless facility to the Alternative Premises. In the event that a suitable Alternative Premises cannot be identified, LICENSEE may terminate the applicable Supplement. In the event of an emergency, which for purposes of this Agreement shall be considered any imminent threat to health, safety and welfare of the public or other such circumstance which was not reasonably foreseeable by LICENSOR and which would cause harm or other injury to LICENSOR or the general public, LICENSOR must provide as much notice as reasonably practical under the circumstances. In the event LICENSOR fails to give

the required notice under this Section, LICENSEE's sole remedy shall be termination of the applicable Supplement and LICENSEE may not seek monetary damages, injunctive relief, or other specific performance from LICENSOR for failure to give notice provided that the parties cooperate in good faith to allow LICENSEE to continue providing wireless services with minimal interruption. LICENSEE may terminate this Agreement by giving written notice to the other party specifying the date of termination, such notice to be given not less than one hundred eighty (180) days prior to the date specified therein.

- 16) ELECTRICAL. LICENSEE shall be permitted to connect its equipment to necessary electrical and telephone service, at LICENSEE's expense. LICENSEE shall attempt to coordinate with utility companies to provide separate service to LICENSEE's equipment for LICENSEE use. LICENSEE shall obtain separate electrical service, and LICENSEE shall pay the utility directly for its power consumption.
- 17) TEMPORARY POWER. LICENSEE shall be permitted at any time during the Term of each Supplement, to install, maintain and/or provide access to and use of, as necessary (during any power interruption at the Premises), a temporary power source, and all related equipment and appurtenances within the Premises, or elsewhere on the Property in such locations as reasonably approved by LICENSOR. LICENSEE shall be permitted to connect the temporary power source to its equipment on the Premises in areas and manner approved by LICENSOR. Noise generated by any temporary power source shall be of an appropriate, non-intrusive level in compliance with the City Code.
- 18) USE; GOVERNMENTAL APPROVALS. LICENSEE shall use the Premises for the purpose of constructing, maintaining, repairing and operating small wireless facilities and uses incidental thereto. LICENSEE shall have the right to replace, repair and modify equipment, antennas and/or conduits or any portion thereof and the frequencies over which the equipment operates, in conformance with the original Supplement. It is understood and agreed that LICENSEE's ability to use the Premises is contingent upon its obtaining after the execution date of each Supplement all of the certificates, permits and other approvals (collectively the "Governmental Approvals") that may be required by any Federal, State or Local authorities as well as a satisfactory building structural analysis which will permit LICENSEE use of the Premises as set forth above. In the event that (i) any of such applications for such Governmental Approvals should be finally rejected; (ii) any Governmental Approval issued to LICENSEE is canceled, expires, lapses, or is otherwise withdrawn or terminated by governmental authority; and (iii) LICENSEE determines that such Governmental Approvals may not be obtained in a timely manner, LICENSEE shall have the right to terminate the applicable Supplement. Notice of LICENSEE's exercise of its right to terminate shall be given to LICENSOR in accordance with the notice provisions set forth in Paragraph 23 and shall be effective upon the mailing of such notice by LICENSEE, or upon such later date as designated by LICENSEE. All rentals paid to said termination date shall be retained by LICENSOR. Upon such termination, the applicable Supplement shall be of no further force or effect except to the extent of the representations, warranties and indemnities made by each Party to the other thereunder. Otherwise, the LICENSEE shall have no further obligations for the payment of rent to LICENSOR for the terminated Supplement. Notwithstanding anything to the contrary in this Paragraph, LICENSEE shall continue to be liable for all rental payments to the LICENSOR until all equipment is removed from the Property.
- 19) INSURANCE. LICENSEE shall carry, at LICENSEE's own cost and expense, the following insurance: (i) property insurance for its property's replacement cost against all risks; (ii)

workers' compensation insurance, as required by law; or (iii) commercial general liability insurance with respect to its activities on LICENSOR improvements or rights-of-way. LICENSEE will maintain general liability insurance with limits of \$4,000,000 per occurrence for bodily injury (including death) and for damage or destruction to property including the City and its employees as additional insured as their interest may appear under this Agreement. LICENSEE shall include LICENSOR as an additional insured on the commercial general liability policy and provide certificate of insurance and blanket additional insured endorsement as evidence of inclusion of LICENSOR in a commercial general liability policy.

LICENSEE may self-insure all or a portion of the insurance coverage and limit requirements required by LICENSOR. If LICENSEE self-insures it is not required, to the extent of the self-insurance, to comply with the requirement for the naming of additional insureds under this Section. If LICENSEE elects to self-insure it shall provide to LICENSOR evidence sufficient to demonstrate LICENSEE'S or its affiliated parent's financial ability to self-insure the insurance coverage and limits required by LICENSOR.

- 20) INDEMNIFICATION. LICENSEE shall indemnify, defend and hold LICENSOR harmless against any and all liability or loss from personal injury or property damage resulting from or arising out of, in whole or in part, the use or occupancy of LICENSOR's improvements or right-of-way associated with such improvements by LICENSEE or its employees, agents, or contractors arising out of the rights and privileges granted under this Agreement and PA 100-0585. LICENSEE has no obligation to indemnify or hold harmless against any liabilities and losses as may be due to or caused by the sole negligence of LICENSOR or its employees or agents. LICENSEE hereby further waives any claims that LICENSEE may have against the LICENSOR with respect to consequential, incidental, or special damages, however caused, based on the theory of liability.
- 21) REMOVAL AT END OF TERM. LICENSEE shall, upon expiration of the Term, or within ninety (90) days after any earlier termination of a Supplement, remove its equipment, conduits, fixtures and all personal property and restore the Premises to its original condition, reasonable wear and tear and casualty damage not caused by LICENSEE excepted. LICENSOR agrees and acknowledges that all of the equipment, conduits, fixtures and personal property of LICENSEE shall remain the personal property of LICENSEE and LICENSEE shall have the right to remove the same at any time during the Term, whether or not said items are considered fixtures and attachments to real property under applicable laws. If such time for removal causes LICENSEE to remain on the Premises after termination of the Supplement, LICENSEE shall pay rent at the then existing monthly rate or on the existing monthly pro-rata basis if based upon a longer payment term, until such time as the removal of the antenna structure, fixtures and all personal property are completed.
- 22) RIGHTS UPON SALE. Should LICENSOR, at any time during the Term of any Supplement decide to sell or transfer all or any part of the Property such sale or grant of an easement or interest therein shall be under and subject to the Supplement and any such purchaser or transferee shall recognize LICENSEE's rights hereunder and under the terms of the Supplement.

In the event of a default by either Party with respect to a material provision of this Agreement, without limiting, other than by the specific terms of this Agreement, the non-defaulting Party in the exercise of any right or remedy which the non-defaulting Party may have by reason of such default, the non-defaulting Party may terminate the applicable Supplement and/or pursue any remedy now or hereafter available to the non-defaulting Party under the Laws or judicial decisions of the state of Illinois. Further, upon a default, the non-defaulting Party may at its option (but without obligation to do so), perform the defaulting Party's duty or obligation on the defaulting Party's behalf, including but not limited to the obtaining of reasonably required insurance policies. The costs and expenses of such performance by the non-defaulting Party shall be due and payable by the defaulting Party upon invoice therefor.

- 26) **APPLICABLE LAWS.** During the Term, LICENSOR shall maintain the Property and the Pole in compliance with all applicable laws, rules, regulations, ordinances, directives, covenants, easements, zoning and land use regulations, and restrictions of record, permits, building codes, (collectively "Laws"). Dear Ms. McAdams,

The world has tough problems: neighborhoods beset by violence and crime, families torn apart by addiction, children living with hunger, neglect or abuse, and people suffering from clinical depression, emotional and spiritual angst. These problems are the toughest of the tough, but The Salvation Army meets them head on, all year round.

We consider it an honor and a privilege to partner with community leaders like yourself to serve the most vulnerable in our neighborhoods.

We are requesting your community's approval to conduct our annual Donut Day and Red Kettle Campaigns in the public ways (sidewalks, intersections, etc.), and our intent to seek permission from private property owners regarding collections of funds in front of their establishments. Solicitation in the public ways will occur exclusively on June 5th.
